SolidColor. Purity of form. The idea: laminate dyed through to the core. The result: a uniform joint-free look. SolidColor allows a modern and monochrome design to be created with no visible edges or joints. Thanks to the perfectly matched colour of the core paper, SolidColor offers a high-quality alternative to lacquered surfaces or solid materials. Furthermore, SolidColor satisfies the highest quality demands on functionality, durability and ease of use. The sturdy and easy-care material is outstandingly suitable for different applications in both the residential and the shopfitting sector, even for surfaces subject to wear such as racks and shelves, furniture fronts, doors and tabletops.

Information on the product

Duropal-SolidColor is available in 9 selected plain decors in size 4100x1300 mm, thickness 1.2 mm.

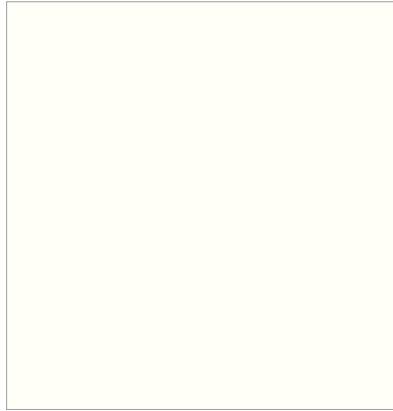

Each decor is available from stock in the structures High Gloss, Semi Matt and Top Velvet.
